EDUCATION

ATRIA INSTITUTE OF TECHNOLOGY

B.E. in Information Science & Engineering

Expected Graduation: September 2027

CGPA : 8.02

R N Shetty Composite PU College

Pre-University Board

2021-2023

Grade : 91.33%

Govt High School Aloor

Central Board of Secondary Education

2018-2021

Grade : 92%

TECHNICAL SKILLS

Web Technologies: HTML5, CSS3, JavaScript, Bootstrap

Programming Languages: Python, C,C++

Database: MySQL

Tools: Git, GitHub, VS Code

COURSES

- **Build Your Own Static Website ([Certificate](#))**: Developed static web pages using HTML and CSS.
- **Build Your Own Responsive Website ([Certificate](#))**: Built responsive web applications using HTML, CSS, and Bootstrap.
- **Database Management using SQL ([Certificate](#))**: Learned relational database concepts and SQL for data retrieval and management.
- **JavaScript Essentials ([Certificate](#))**: Gained knowledge of JavaScript fundamentals, DOM manipulation, and event handling for interactive web applications.
- **Python Programming ([Certificate](#))**: Acquired hands-on experience in Python programming, object-oriented concepts, data structures, and problem-solving for application development.

PROJECTS

Speed Typing Tester | HTML, CSS, JavaScript, Bootstrap, Fetch API

- Developed a responsive Speed Typing Test web application with API integration, timer tracking, input validation, and responsive design to validate user input and record completion time.

Code-Tester | HTML, CSS, JavaScript

- Developed a responsive frontend web application using HTML, CSS, and JavaScript. Implemented multi-section navigation, dark mode, event handling, and responsive design to create an interactive coding dashboard.

Weather Forecast Application | HTML, CSS, JavaScript, OpenWeather API, Lottie Animations

- Developed a responsive weather application with OpenWeather API integration to display real-time weather information, animated weather conditions, city search, and error handling for invalid locations.
